

Citrus College

Forestry (A comprehensive look at Wildland Resources)

- Transferable
Transfer requirements vary from college to college. See a counselor to set or review an educational plan.
- Associate in science degree in natural sciences
- Certificate in Forestry after completion of:
 - FOR 101 Intro to Forestry
 - FOR 102 Forest Ecology
 - FOR 103 Plant Identification
 - FOR 104 Intro to Forest Recreation
 - FOR 105 Wildland Fire Management
 - FOR 106 Wildlife Management & Ecology
 - ESCI 180 Intro to GIS

The Forestry program at Citrus College offers hands-on classes where you will learn the fundamentals of the wildland ecosystems by studying plants, animals and their interactions in forested environments.

Without the guidance of professional biologists and foresters, the productivity of our wildlands may be spoiled for future generations. Public and corporate concern over the fate of forested lands has never been greater. In the next 20 years, forestry workers will be confronted with enormous challenges, and forestry graduates will find an unprecedented opportunity for employment.

With a certificate in forestry from Citrus College, you can become a forest technician for the private or public sector. Forest technicians have a multitude of responsibilities, which include gathering data on the size, content and condition

of forestland. They also plant tree seedlings, put out forest fires and maintain recreational facilities.

If you continue your education and earn a bachelor's degree, you can be a conservation scientist, wildlife biologist, or forester. Individuals with these positions are also concerned with the economic and environmental impact on natural resources. They work to conserve wildlife habitats, water quality and soil stability while complying with government regulations. They also supervise habitat and wildlife restoration programs.

- Day Classes
- Evening Classes
- Assessment test required for certificate, associate degree and transfer students.
- Financial aid is available to qualified students. Complete and submit FAFSA to determine your eligibility.

College Admission

Admission to Citrus College is open to high school graduates and any person 18 years of age or over.

To enroll, submit an application for admission online at:
<https://wingspan.citruscollege.edu>

Provide sealed official transcripts of all previous college and high school work, if applicable.

Assessment of English and math skills is required for all new students planning to enroll in more than 5 units or planning to complete an associate degree or higher. For assessment information, contact the Counseling and Advisement Center.

Concurrent Enrollment for High School Students

Some programs and classes are available for current junior and senior high school students. Interested high school students should contact their high school counselor or the college's Admissions and Records Office.

Associate Degree

For an associate degree, you must complete a minimum of 60 units including a minimum of 18 units in your major, a minimum of 22 units of general education, a minimum of 17 units of electives and satisfy the physical education requirement.

Please note: Only courses numbered 100-299 may apply toward the associate degree.

Transfer Requirements

Transfer requirements can be integrated with the associate degree option so that you may receive a degree at the time of transfer. **See a counselor for specific requirements for your major. Course requirements may vary among colleges.**
