

New Policies Affecting CalWORKs Students

Unsupervised Study Time: Any CalWORKs student who has a VOC (GN 6006) may now count one hour of unsupervised study time per one hour of class time towards the 32/35 hour requirement. In the example of a 3 unit class that meets 3 hours a week, you may now count the 3 hours of class plus 3 hours of study time towards your weekly participation time. You must document the study time and attach it to your Monthly Attendance Report.

Exemptions from 32/35 hours: Effective immediately, students who have a child 12mos-23mos or two children under the age of 6 are now exempt from completing the 32/35 hour requirement. Students must contact their GSW to tell them they would like to “volunteer” so that you may continue to receive child care and transportation while you attend school.

Please stop by the CalWORKs office for more information about these two policies.
