

## **Diversity, Equity, and Inclusion Task Force Highlights Friday, May 13, 2022**

Ms. Thomas led the group in a discussion about transitioning the DEI Task Force to an official participatory governance committee that would report to the College Steering Committee. The Task Force discussed members interested in joining, committee responsibilities, goals for year one, and committee composition. The Task Force also reviewed groups on campus that engage in similar work and shared ideas for how the information could be shared and received between other committees.

Dr. Christian updated the members on the number of students and employees who have completed the DEI survey thus far.

The last DEI Task Force meeting will be on June 10, both in person and online. Light refreshments will be provided to celebrate the work that the Task Force has accomplished over the past two years.
